1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts. Both pigments are found in the chloroplasts of green plants.

THE PASSENGER ACT 1883.

## District of New York, Court of New York.

I, *Edw. Lloyd*

I, John J. Can,  
Master of the  
List or Manifest, subscribed by me, and now delivered by me to the Collector of the Customs of the Collection District of New York, is a full and perfect list of all the  
that the following  
Passengers taken on board of the said  
has now arrived, and that on said list is truly designated the age, the sex, and the occupation of each of said passengers, the location of the compartments or space of the said  
vessel occupied by each during the passage, the country of citizenship of each, and also the destination or location intended by each, and that said List or Manifest truly sets  
forth the number of said passengers who have died on said voyage, and the dates, and the names and ages of those who died; also of the pieces of baggage of each, also a  
true statement as far as can be ascertained with reference to the intention of each alien passenger, as to a protracted sojourn in this country.
